Chief Executive Officer

René Reichardt

René Reichardt is Chief Executive Officer (CEO) of DAS Environmental Expert GmbH.

He started his career with an apprenticeship and a subsequent employment as communication electronics technician at the company Siemens Nixdorf, a cooperation of Siemens AG.

After a four-year stay in England René Reichardt joined DAS Environmental Expert GmbH in 2005 and accepted the challenge to develop the service and sales organizations in China and Vietnam. At this stage he significantly focused on the semiconductor as well as solar industry and developed the Pollution Abatement Facility concept; a turnkey solution for thin film manufacturers, combining the waste gas and wastewater treatment.

In 2008 René Reichardt graduated as MBA at the Danube University Krems/Austria before returning to DAS headquarters in late 2009. Back in Dresden he took on the management and strategic development of the business unit wastewater treatment.

In June 2016 he was appointed the managing director of DAS Environmental Expert GmbH.
