

Management

Chief Executive Officer & President

Dr. Horst Reichardt

In 1975 Dr. Horst Reichardt completed his physics degree at the Technical University in Dresden. Since 1976 he has worked in the semiconductor industry in Dresden which was already a center for microelectronics.

In 1989 Dr. Horst Reichardt received his doctorate from the Technical University in Chemnitz, where he and his team successfully developed technologies for MOS applications in 265 KdRAM, 1 MdRAM and 4 MdRAM circuit generations. He participated in more than fifty, partly global, patents.

Dr. Horst Reichardt is the co-owner of 15 patents or patent applications, many of them worldwide. In 1991 he co-founded DAS Environmental Expert GmbH and has since been an integral part of the enterprise's strategic business development.

In 2005 he was honored with the European SEMI Award for being a "pioneer in Waste Gas Abatement Technology".
